

## Douwe Egberts Gordon NSW

Previously under the umbrella of Sara Lee, the Dutch based Douwe Egberts coffee and tea company had recently launched a new logo and engaged **bokor architecture + interiors** to create a brand new look for their Gordon headquarters.

The scope was to relocate 80 staff to a space designed to inspire where clients and staff mingled in a relaxed atmosphere. Although predominantly an office environment, bokor infused all of the spaces with café like qualities from chalkboard walls in meeting areas, casual meeting hubs, activity based work desks and rooms aimed at stimulating ideas and creativity.

**bokor** developed graphics that were used to showcase the Douwe Egberts long history with a small museum in the reception area displaying objects and products about the history of the company and coffee making.

With a very limited budget and tight time frame, **bokor** delivered a high quality project and have since been engaged to roll out all of the Douwe Egberts offices around Australia.
